Re: Farmall 656 ---fixed the lean running issue! in reply to littlefarmer, 04-20-2021 19:07:41 The problem with rebuilt carburetors is the rebuilders do not check specs good enough. A lot of specs get changed by a service bulletin but part books have already been in print so it never shows up in a service manual.

Everyone has their opinion. I think also you can't go wrong with what the owners manual says in weight and viscosity. It is when you start getting into brands that people start to fight. I have a good friend who is a better mechanic than me, he told me once years ago after I overhauled IH diesel tractor, he doesn't get too excited about brands of oil, but CLEAN is the best oil.
