While the packaging of the traditional training manual has changed, its noble purpose remains consistent. A training manual is a set of instructions that improve the quality with which a job, process, or task is performed. Companies use training manuals with in-person, remote, on-demand, and just in time training. A few common applications include:

For the first coat, coax your lashes inward with the mascara brush. For the second coat, paint each lash with the tapered end. Finish with the third coat by fanning your lashes with the brush. If you want an even more intense look, sweep on some baby powder with a Q-tip between each coat for longer, thicker lashes.

Training manuals are an important part of teaching new employees about a company, or old employees about new systems or programs. The exact process for writing a training manual may be dictated by the industry it is for, but there are some general things you can do to help your employees get the most out of the manual.
