Custodial care assists with personal and home care, such as ADL's and IADL's. This level does not require the services of a skilled or licensed provider. Custodial care can take place in the home, a SNF, or an assisted living facility among other places. Medical insurance does not cover this level of care. Also see Alternative Care Facilities

Levels of care

A growing body of evidence suggests that using cleaning products can also cause asthma to develop in healthy people. A 10-country study of more than 3,500 individuals who were initially free of asthma found that nine years later, those who used spray cleaners at least once a week to clean their homes had a 30-to-50 percent increased risk of developing asthma during the study period (Zock 2007).
