The Caves Of Steel Robot

The Caves of Steel is a science fiction novel by American writer Isaac Asimov. It is a detective story and illustrates an idea Asimov advocated, that science fiction can be applied to any literary genre, rather than just being a limited genre in itself.. The book was first published as a serial in Galaxy magazine, from October to December 1953. A Doubleday hardcover followed in 1954.

The Mule was a powerful mentalic mutant, warlord, and conqueror who posed the greatest threat to the Seldon Plan. His acute telepathic ability to modify the emotions of human beings derailed one of the basic assumptions of Hari Seldon's psychohistory - that, in general, the responses of human populations to given stimuli will remain the same.

Les mouvances technophile et transhumaniste voient parfois les trois lois comme un idéal à venir. Des avancées significatives en matière d'intelligence artificielle seraient nécessaires pour que les robots obtiennent une intelligence. Toutefois, la complexité des robots a augmenté et l'avancée de la technologie suit une courbe exponentielle selon la singularité technologique.
