TURBOFAN ENGINE TEST CELLS. Whether it's design and construction of complete TurboFan test cells, or the upgrade of existing test cells and maintenance facilities, Atec has the experience, low cost and advantages to offer best value. Our 67 years of technical background involving turbine engine test and support is top rank.

TurboFan Engine Test Cells - Atec

Detuner is a generic term for a jet engine test cell exhaust system muffler.. Aircraft jet engine testing facilities typically require a means to vent and dampen the engine exhaust. The engine exhaust flow is "augmented" with a relatively large flow of cooling air induced by a Venturi effect into the exhaust silencing system, so the exhaust muffler is generally referred to as an "augmenter" ...
